

TKI

PT TOYO KANETSU INDONESIA

PT TOYO KANETSU INDONESIA (TKI) was established in 1974 as joint venture between PERTAMINA – one of the world leading oil producers, TOYO KANETSU K.K., Japan (TKK) – a world recognized leader in tank business, and OHTERS.

TKI, with its fabrication facilities in Batam, has been serving the petroleum, natural gas and petrochemical industries in Indonesia and neighboring countries in the field of engineering, fabrication, and construction of various type and size of tanks for many years. TKI has successfully constructed the largest LNG tanks in Indonesia, having a storage capacity of 170,000 m³. With hundreds of tanks installed across the Indonesian archipelago, TKI is recognized as leader in the field and continues to set new records.

Reliable shop fabrication by Batam Plant, coupled with rich construction experience built up over the years, receives high praise from our Clients, both domestic and overseas. In recognition of its capabilities, TKI has been awarded numerous major projects throughout Indonesia. Such projects include supply of structural steel facilities, vessels, and spheres. Fabrication of spherical tanks at own facility in Indonesia was pioneered by TKI. This vast experience and continuing commitment to produce reliable high quality products has made TKI the recognized industry leader.

OUTLINE OF TKI

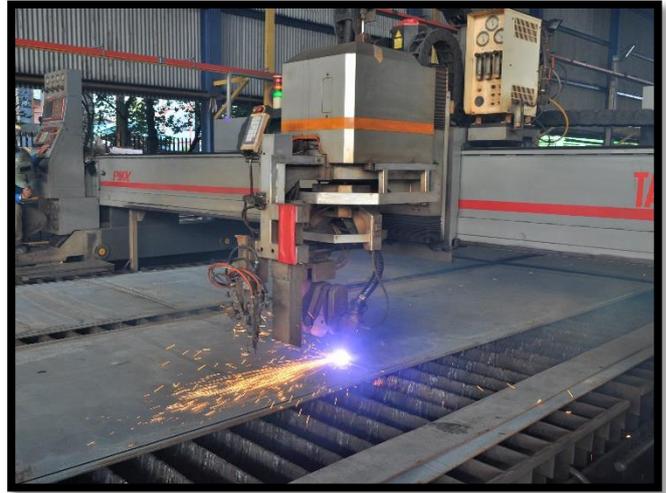

Name of Company	PT TOYO KANETSU INDONESIA	
Authorized Capital	US\$ 3,755,000	
Date of Foundation	September 9, 1974	
Capital Equity	TOYO KANETSU K.K.	97.31 %
	TKM	2.66 %
	PT Intimarindo Primacon	0.03 %
Number of Employees	266 (as of May 31, 2019)	
Head Office	Midplaza Building 1, 8 th Floor, Jl. Jend. Sudirman Kav. 10-11, Jakarta 10220, INDONESIA Phone : +62-21-570-7805 / 7739 Fax : +62-21-570-3950 E-mail : tkibatam@pttki.com
